I am Richard Sheldon Simon Schuster colonel of the neander special forces of Netflix islands and I was provost of the Georgetown university and university of azores and university of Glasgow in Glasgow island. I was CEO of Netflix software global in Nova Scotia. I am retired 36 years in the armed forces. After eviction from Nova Scotia for rape of my secretary in Nova Scotia I was given a home in Zaire islands. Miscreants torched and burned my estate home in Zaire islands. I escaped by my helicopter and now I am trapped in suravalli islands in Tamilnadu state in my farm home in ayodhyapattinam village. My identity cards and uniform and money material were robbed by temple spiritual entities. My Android phones and sim cards were robbed. I spent 6 months in suravalli islands with nothing surviving by V spiritual encampment help. People deny my identity cards and call me ramesh. I am also called V admiral commander of the navy in all islands. In Nova Scotia I was called Tom cruise jerry bruckenheimer. I am 146 years old now age derived by the Navy. I was captain of many nuclear powered ships and submarines. In the 6 months in suravalli islands the government poisoned the island of suravalli deliberately giving me amnesia 7. I don't remember

any of my past life. Kindly do something. I was Assistant executor of the Armed forces civil rights committee in new jersey islands. My son is Martin Luther King.
